No. 49

HUNDREDS OF DEMOCRATS ATTEND RALLY

Ex-Governor Hunt and Congressman Carl Hayden Well Received in Mohave County.

The political campaign was opened in Mohave county Wednesday last by Congressman Carl Hayden, S. H. Ramsey, candidate for state auditor and George W. P. Hunt, candidate for governor, the opening gun being fired at the big gold camp at Oatman. A large audience listened to the speeches of the campaigners and they received generous applause. A number of Kingman people accompanied the candidates to Oatman and looked after the arrangements for the speakers.

Thursday afternoon the candidates talked to the people of Chloride on the issues and were well received.

Last evening a great crowd greeted the speakers at Elks Hall, the gathering being the largest we have ever seen at a political gathering in the town. Senator James Curtin was chairman and introduced the speakers. Mr. Ramsey made an interesting talk on the duties of the state auditor and his fitness for that office. He is a young fellow who has made good in his home county of Yuma and has made friends wherever he has appeared in the state. For twelve years he has held various positions with the Bank of Somerton and is cashier of that institution at the present time. He will have little opposition for the office.

Carl Hayden the idol of the people of the state, made a wonderful address, scintillating with trite saying, sound logic and non-partisan argument. His address carried conviction to all his audience. Mr. Hayden has served the people the past ten years in congress and no state in the union has a more active representative. No matters affecting his constituents are too large or small to receive his immediate attention, no matter whether the service be for a political friend or foe it gets the same painstaking attention. And in discussing the service of this man to the state, we would make use of an expression of Chairman Snyder, of the house Indian committee at Parker, Arizona, two years ago, when at a banquet, he said that it would be an irreparable loss should Mr. Hayden fail of election. Mr. Snyder is a republican congressman from the great state of New York. In conversation with the writer he said that Mr. Hayden was one of the

(Continued on Page 4)

GREEN QUARTZ WILL RESUME OPERATIONS

The Green Quartz, situated in the Black Range section of the Oatman district is about to resume operations, sufficient finances having been obtained to carry on an important development campaign. The vein of the Green Quartz is large and shows some excellent ore. During the boom days of the camp it was opened in a small way, but the mine deserves better things and we hope the new management will equip it and develop it to a depth that will bring into light some of the good things that are known to be in it.

Junior Dances

Beginning Saturday afternoon there will be a junior dance at the Odd Fellows Hall every Saturday from 2:00 o'clock to 4:30 P. M. These dances will be held for the benefit of the young folks who are too young to attend the night dances. Arrangement will be made for season tickets for dancing lessons. These dances are for the young folks exclusively, one afternoon a month will be visitors day. Mrs. Price assures the mothers their children will be well taken care of. And if they are old enough to know what dancing means let them come and have a good time.

Mr. and Mrs. Mark Pearson are back from the coast where Mr. Pearson went to recuperate from an illness. Mr. Pearson has bought the interest of his former partner, Mr. Simms, in the Old Trails Garage and is now running that business under his own name.

REPUBLICANS WILL MEET AGAIN NEXT SATURDAY

The Republican County Committee met at Oatman Thursday evening and discussed the political situation at Oatman with the Oatman Republicans and adjourned to meet at the court house at Kingman Saturday evening at which time it was decided to place the following names on the ticket to fill vacancies.

For Supervisor First District A. R. Meyer of Oatman.

For Superintendent of Schools, Mable Le Clair, of Oatman.

For Supervisor Second District, C. A. Patterson, of Kingman.

Action on other vacancies was deferred.

OATMAN UNITED AIR HOLE HITS ITS OBJECTIVE

The hole that has been drilled from the surface to reach into the workings of the Oatman United for the purpose of supplying air to relieve the mine of a bad condition has broken thru into the station, where the survey of L. H. Foster indicated it would. This hole is about 900 feet in length and owing to the character of the ground through which it was bored it had to be gradually reduced. It is now proposed to ream the hole to make it potential enough to carry all the gases from the workings and cut out the necessity to pump air.

With the relief that will be afforded by the air hole or air shaft as it may be termed, work on the mine will be inaugurated to put the property in immediate condition to ship ore to the big mill. The lack of good circulation of air in the workings has been a great handicap to the operation of the property, but now that the hole has been carried through it will probably be able to carry a large part of the gases that form, and at the same time cool off the warm spots.

The Oatman United is one of the most important properties in the camp especially as the drill holes have indicated great ore bodies for a considerable length along the big veins. Where these bodies have been entered by crosscut and drift they are shown to be practically as potential as the drill cores indicated. If the other sections show up as well under the program of development the mine will be a wonderful producer.

TRIPLETS BORN IN MOHAVE COUNTY

Last Friday, a week ago today, history was made in Mohave County, when triplets were born for the first time within our boundary lines and all three were girls. All this week visitors have been flocking to the hospital to see the young ladies. The arrival of triplets cause no little interest to be sure.

Dorothy, Dolores and Doris are their names, selected by Halene Douglas. They are apparently all in excellent health.

The mother, Mrs. Thomas C. Wiggins is getting along equally well.

The father of the triplets, Thomas C. Wiggins, is a steam shovel operator employed on Santa Fe construction. When first informed of the increase in his family it is said he had to hold his head and steady himself a little. The shock was almost too much for him. Mr. and Mrs. Wiggins already had one little girl, age 2, who is quite proud of her little sisters.

The Wiggins union was the result of a war romance. Mr. Wiggins having met his wife, then Mary Francis Farrington, at West Derby, Liverpool, England. They lived in Los Angeles until recently when they moved to Kingman.

Yesterday Mrs. Wiggins saw all three of her little daughters at once for the first time.

J. W. Heyer has made application at the patent office on a device to be used on broken hubs. The device is simple and can be taken along by the travelling motorist with the rest of his tools to be used in an emergency.

VEIN RECENTLY STRUCK ON TOM REED WIDENING AS DRIFT ON 500 CONTINUES

Phenomenal Values in the Vein and its Big Possibilities Brings Directors of Company to the Property. They Leave Greatly Pleased

So important is the strike on the Tom Reed that directors of the company journeyed from Los Angeles Monday last to look the new vein over and get an eyeful of the rich stuff. President S. S. Wold and directors J. W. Roach and Oscar R. Howard spent two days at the mines and passed thru Kingman on their way home Tuesday afternoon in a most happy frame of mind. As a result of their visit the new vein will be entered at a deeper level, approximately 150 feet below the present crosscut.

A drift is now being carried along the 500 level and the showing of ore is the best ever opened in that end of the property. As an evidence of what is being opened we give a few assays taken across the vein: Three feet, \$604; 5 feet, \$162; 3 feet, \$319; 5 feet, \$111.61; 3 feet, \$1015.55. It is said that one assay across five feet of the vein gave a result of close to \$1500. The whole vein so far has been entered is wonderfully rich and it is expected that this condition will obtain at the lower level. In the same vein, which has been opened on the 600 level of the Telluride vein, is nine feet wide of rich mill ore. While the Tom Reed vein is smaller than that found in the Telluride it makes

up for it in extraordinary values. Nothing that has been opened in the camp in recent years can be compared with this new strike, and should a lower level show a continuance of the rich stuff it will surely boom the Reed shares, and there is no reason in the world why it should not continue. The adjoining property has it at this deeper horizon and the potential end of it is in the Reed estate.

Mr. Howard, the new director in the Tom Reed, is greatly pleased with the showing the property and the able manner in which the development of the mine has been carried on. Mr. Howard is one of the large oil operators of the coast and is said to have cleaned up millions from his holdings. We believe it is his first venture in the mining field, but he has sure picked a winner. The mining editor has always held faith in the development of great ore bodies in the Reed and he feels gratified to have his vision come true. A free hand to the man at the helm in the development of this property is what is necessary to make it one of the greatest gold properties in the country. The estate is immense and every part of it has potentialities for ore development.

GOV CAMPBELL ADVANCES ISSUES FOR CAMPAIGN

Governor Thomas E. Campbell spoke before two meetings in Mohave county Tuesday evening. He reached Oatman a little after noon Tuesday and remained over for an early evening meeting, reaching Kingman a little after nine o'clock.

Preceding the governor's talk, Mrs. H. A. Guild, candidate for congress, Ernest Hall, out for re-election as state treasurer, Miss Jane Gregg, candidate for the office of state treasurer, and James A. Smith, candidate for state auditor were introduced and gave short talks.

Miss Elsie Toles who also stayed over for the Oatman meeting with the Governor then arrived and gave a very interesting discussion of the school situation. She laid especial emphasis on the amendment which will go to the voters this fall calling for a reorganization of the state board of education. Under this amendment there would be seven members to a permanent board, appointed by the governor, one new member being appointed each year. This board would in turn appoint the state superintendent, thus taking the state school supervision out of politics, and Miss Toles states this will raise the status of the schools to a higher level.

Following Miss Toles' address, W. J. Galbraith, who is seeking re-election as attorney general spoke until the arrival of the governor's party from Oatman. Mr. Galbraith mentioned the members of the party who were not present at the meeting, and then reviewed his work in office for the past two years and asked for re-election on the grounds of results. Among other things he stated he had saved the state \$7625 the past year.

A little after nine, Gov. Campbell, the speaker of the evening arrived.

The Governor opened his address with a little family history in order to bring out the point of what he thought of the opportunities of an American citizen were today and how he valued his citizenship. Governor Campbell was born near Prescott, his mother and father having journeyed here in the early days before railroads had appeared. He said "An American citizen today has an opportunity to be what he wants to be. A little ability and a lot of stability are the necessary requisites and I have no patience with those who advocate a new philosophy of government" and

(Continued on page 4)

TELLURIDE AGAIN CROSSCUTTING TO THEIR VEIN

The crosscut from the 600 level of the Telluride has been somewhat impeded owing to the necessity of installing a large compressor. This new machine will soon be in place and then the work of crosscutting from the shaft to the big vein will be rushed. It will be understood that in the winze, which was sunk to the 500 level, the ore body cut at that station was nine feet in width and carried an average value of \$35. The shaft is about 150 feet distant from the vein and this crosscut will have to be run to get into the ore. It is now out about 40 feet and had there been no delay it would have been close to the ore at this time. There is about 90 feet of ground yet to break to reach the vein and this will be cut through in the next fifteen or twenty days.

The Telluride is said to have nearly a million dollars in sight and the new lift that will be opened will double this amount. Since the ore was entered on the 300 level the work of carrying development into the important section of the mine has been rapid. About 4,000 tons of ore have been shipped to the Tom Reed mill, the average being around \$30. Aside from the development of the ore body on the estate of the Telluride the new development will have and important bearing on the ore bodies of the Tom Reed, as the vein extends into the big estate of the parent company of the camp, but has not been entered at the depth shown in the Telluride. On the 500 of the Reed the ore is wonderful, and the indications are that better ore will be reached at the new depth.

Mrs. Newell Will

Today it is thought Mrs. Newell, who passed through a very serious operation Tuesday morning, is out of danger. She is at the Mohave county General hospital where she is receiving all the attention that money can buy.

Mrs. Newell was taken suddenly ill Sunday. Monday Dr. Rinehart pronounced the case peritonitis and called in Dr. White who operated soon after, assisted by Dr. Rinehart.

This operation is an exceedingly dangerous one and owing to the fact that the chances of the patient for recovery are slight, the many friends of Mr. and Mrs. Newell are especially thankful that she is recovering.

RUTH COHENOUR WEDDED TO WALTER G. STUMP

Ruth Cohenour, a native daughter of Mohave County was on Thursday of this week wedded to Walter G. Stump, of Beatrice, Nebraska.

The wedding was a quiet one only a few friends being present. The ceremony took place at the bride's home and was performed by Rev. T. H. Dodd, at 8 o'clock.

The young people left soon after for the Grand Canyon on their wedding trip.

The bride is the daughter of Mrs. J. N. Cohenour of Kingman and has a host of friends whose best wishes for a happy married life are extended her. The groom is with the Sprague Construction camp.

After a short wedding trip the young people will return to Kingman where they will make their home for the time being at least.

GEORGE GRANTHAM FINISHES SEASON WITH CHICAGO CUBS

George Grantham returned home Tuesday of this week from Chicago. Three short years ago he was playing ball with the Kingman Wildcats. Now he is playing ball with the Chicago Cubs. George has made good, and if it were not for the fact that we dislike to indulge in melodramatics and furthermore that it might embarrass George we would like to say how proud Kingman people are of his record. Anyway we were all mighty glad to see him again and more glad to see that hitting big league time had not turned his head as is the case with many young men.

Owing to the fact that he was troubled some with pleurisy, George was released a short time before the season closed. However after he went up from Omaha he had the opportunity to get into five games and held his own with the Cubs. Besides he was put in two other games as a pinch hitter.

Now he will have a long rest until the latter part of February when the Cubs go thru here on their way to Catalina Island for spring training. The few games he went into with the Cubs before the season closed gave the management a chance to see what he could do in action in big time and also gave him a chance to get acquainted with the rest of the players. This will be a good start off for next season.

Three years ago friends of George predicted he would be hitting the top of the ladder in three years. They were not fooled.

RAY ROBINSON WINS YEARS GOLF HANDICAP

The final round in the Handicap Contest was played last Sunday with Ray Robinson coming through as the winner of the match between himself and Carl Smith. The match ended at the sixteenth hole Ray being three up and two to play.

Due credit should be given to Robinson for playing a good match game in that he used his handicap to advantage thruout the match, allowing Smith only halves on those holes where he made pars and quite often he shot a par himself. This occurred three times on the short holes Robinson scoring three forcing Smith to try for twos. The medal scores of both players were high, Smiths being 89 to his opponents 99 for the eighteen holes.

From the information gathered during this contest it will be possible to place the members on a more equitable handicap basis which fact will help to keep the interest already displayed up to high pitch.

The opening of the hunting season will draw a few of the members away from the game during the month of October but most of the members will be shooting golf after they have had a few hundred yard dashes with the mountain quail of these parts.

Watch the Miner for the announcement of the next contest for it's going to be a hummer.

Herb Babbitt, of Babbitt Brothers of Flagstaff, Arizona was in Kingman on business Wednesday. Mr. Babbitt accompanied by Bud Waters of Kingman, also made a quick trip to Hackberry.

BLANCHE ELLIOTT TAKES LEAD WITH 375 000 VOTES

Special Week Opens Tonight Beautiful Gifts Added for Winners of Week.

CANDIDATES STANDING SECOND WEEK OF CONTEST

Blanche Elliott	375,000
Vera Imus	370,000
Evelyn Mensch	360,000
Helen Fox	200,000
Mrs. Fred Swenson	84,000
Helen Gray	5,000
Miss Davis	5,000
Lila Reid	5,000
Leonarda Schuckin	5,000

This week beginning tonight at 6 P. M. and closing Wednesday evening October 15th at 8 P. M. has been set aside as Special Week. The first the Grand Special will be the display of the New Baldwin piano and Victrola opening at 6 o'clock tonight in the window of the Central Commercial.

The candidates triple special is a side offer to all candidates entered or entering within the dates covering special week. Three beautiful gifts will be given, the first, a beautiful gift box of ladies stationery, the very latest thing in the new Cretone covered box. It will be on display at the Rejha Book Shoppe tonight and will go to the candidate bringing to the Miner office the first twenty new yearly subscriptions to the Miner.

The second, a pin Seal Black leather Vanity bag will go to the first candidate bringing twenty old-yearly subscriptions. It is displayed in the windows of the Quality Shop. The third, a delicious box of Lely Chocolates to the first candidate turning in three new five-year subscriptions. See it at the Rose Tree.

The Candidates Triple Special opens at six o'clock tonight and will close at 8 o'clock Wednesday evening. The gifts will be awarded the winners immediately upon the close of Special Week.

Miss Blanche Elliott polls first in this weeks voting with 375,000. Last weeks leaders are running almost neck and neck, Miss Elliott polling but five thousand votes ahead of Miss Vera Imus and but fifteen thousand ahead of Evelyn Mensch.

Oatman comes out strong this week with a poll of 200,000 votes. Miss Fox promises to prove a stiff contender for the Maxwell automobile, both by her own declaration and the fact that although entering the contest a week late she polled fourth in the weeks voting.

Harold Rofinot Died Today

It is with sincere regret and deepest sympathy that we announce the death of the 14 months old son of Mr. and Mrs. Gus Rofinot. The baby Harold Rofinot, was ill with summer complaint several days and was in the hospital three days before his death. Friday morning, October 6th., at 9 o'clock. The date of the funeral has not been announced as yet.

A Bank Account For Mohave County's Triplets

Someone has suggested that Kingman give a present to the Wiggins triplets and as a consequence the Miner is starting a fund. Anyone who wishes to contribute may send or bring their check or cash to the Miner office. The Miner will start the list off. Next week we will run a list of all contributions to the fund for the benefit of our readers.

This is not a charity proposition but a present for Mohave County's first triplets. Many presents have already been sent but it would seem a bank account would be the most welcome and useful present of all.

The parents of course were not prepared for the unexpected increase in their family and so additional clothing had to be sent for and there are considerable additional expenses all around.
